PROFESSIONAL SUMMARY

Developer with 8 + years' experience in publishing domain and Data enthusiast with expertise in Python, XML, XSL and XSD and eager to explore new horizon.

EDUCATION

Master of Computer Application, IMCOST, Mumbai University 2004 - 2008

Bachelor Of Science in Information Technology, AP.C, Mumbai University 2002 - 2004

TECHNICAL SKILLS

Programming: Python, XSL, Core Java.

Python Web framework: Django/Flask

Scripting: JavaScript.

Data Analytic: ElasticSearch

Markup language: HTML, XML

Version Control: GIT

Database: Postgre

Github

Python Flask practice:

- Learning project to implement flask and implementation of CRUD.
- Initially implemented to use SQLite later upgraded to postgres more strict handling of primary and foreign keys.
- Implementing learning from flask class with assignment.

Web Development using Django:

- Self-learning project to implement fullstack development using Django, postgres.

FTPyng

- To extract zip file from ftp location and extract the html files and create log of file downloaded to avoid duplicate and thereby avoid downloading same file again.

Exploratory Data Analysis(EDA)

- Ongoing UPX practice project on EDA of EPL performance analysis from 2012-16 data.
- Titanic datasets Analysis.

WORK EXPERIENCE

06/2016 -

Senior Software Engineer, Thomson Reuters, Hyderabad India

Project: Test Automation

- **Technical Expertise: Python, Roboframework.**
- Build automation framework.

Project: Checkpoint

- **Technical Expertise: Python, XSL, DTD, XML, HTML.**
- Transform the old GAAP content into new business logic(schema). To make it generic for multiple editorial articles and thereby publish in Checkpoint.

Project: Future States

- **Technical Expertise: Python, XSL, XSD, XML, HTML. plain JavaScript.**
- Web scrap html content using Python from public site transform them to xml data using XSLT which adhere business logics.
- Create XSD(schemas) rules for validation of the transformed content
- Transformed XML to HTML format

POC: REST API

- **Technical Expertise: Python, Flask, XSL, XML.**
- Purpose to achieve a way to create API to run style sheet on any given xml file generate xml output in JSON format.

Project: Checkpoint security concerned mitigation

- **Technical Expertise: Java.**
- Mitigating security vulnerability due to cross site scripting Persistent site scripting document exist in Java code base.

12/2014 - 06/2016

Senior System Engineer, Wipro Technologies, Hyderabad India

Project: ProFile Document Compare

- **Technical Expertise: XSL 2.0, XSD, XML.**
- Merging old and new document to create difference document using filter written in XSL 2.0.
- Testing the changes in pagePro.

06/2011 - 11/2014

Software Engineer, Thomson Reuters, Hyderabad India

Project: Checkpoint

- **Technical Expertise: Plain JavaScript, XPATH, XSL1.0/2.0, XML.**
- Migration from XSL 1.0 to 2.0.
- Resolving style sheets Issues.
- Working with the CPS team for databases (NLF) gathering for build.
- Resolving dead link in Thomson Reuters's checkpoint browser.
- Create schema for xml validation.
- Standardizing TOC structure of the document using JavaScript, XPATH.

02/2010 - 06/2011

Process Executive, Infosys, Pune, India

Project: Lexis Nexis Case Law

- **Technical Expertise: XML, XSLT, HTML, CSS, Perl, UNIX**
- Analyzing and understanding the mapping with reference to schema provided and report the issues encountered in mapping.
- Creating style sheet as per mapping.
- Transforming raw XML input file to XML as per defined conversion instructions.
- Testing and validating with XML schema.
- Generating Test Case.
- Document schema errors.
- Running final style sheet on testing environment in UNIX test box.

Personal Details

- DOB: 30/10/1984
- Gender: MALE
- Nationality: Indian
- Marital Status: Married
- Passport: R0804965
